

Between January 2000 and December 2010, did you buy Optical Disc Drives (“ODDs”) or products containing ODDs (including computers, DVD-players, Blu-ray players, etc.)?

If so, you might be affected by a class action settlement totalling approximately CDN\$5.6 million. The settlement is subject to Court approval.

For more information about the settlement, your options in relation to the settlement, and deadlines for acting:
